CSP Awareness training in Fiji	6
CSP Upcoming activities	7
Important Reminders	8

Cyber Safety Pasifika (CSP) has delivered the first CSP Awareness Roundtable Discussion held in March 2019 in Samoa. Attending the Roundtable Discussion were Pacific police officers across 16 countries.

The roundtable enabled Trainers the opportunity to evaluate the CSP training they have received to ensure it is still relevant and contemporary. During the roundtable discussion, the trainers reviewed:

- Country reports on CSP Awareness activities
- Reviewed the current training manuals for the CSP train the trainer program
- Reviewed and updated CSP Awareness Presentations
- Developed Country specific delivery plans for the next 12 months
- Discussed and planed Youth Ambassador Forums

Given this was the first Roundtable Discussion we had many successful outcomes including:

- New CSP Awareness training manual for “The Elders”
- Changes to the current training manual
- Establishment of Cyber Safety Pasifika Awareness Week starting 4th—8th May 2020
- 2019—2020 Planning calendars - 12 month delivery activity plan
- CSP Youth Ambassador Proposals—Business case

The Roundtable Discussion will be held every 2 years to ensure the CSP Program is up-to-date with relevant and contemporary cyber safety information.

Story by Kellie Keys, CSP, Cyber Safety Awareness

CSP Advisory Committee

The CSP Advisory Committee met for the first time in Fiji on 8 – 10 April 2019 to gather the relevant stakeholders together to ensure the CSP Program is meeting the strategic priorities and needs of our Pacific Partners. One of the outcomes of this meeting was the need to baseline the cybercrime capability across individual jurisdictions. As such, the Capability Evaluation was developed.

The purpose of this evaluation is to establish an understanding of what capability and capacity each nation has in relation to cybercrime investigations, legislation and what other training is being provided by other Agencies. The evaluation is being sent out to participating countries during the week beginning May 27, 2019.

Overall, the meeting was a great success, and it was agreed that the Committee should meet annually to ensure the CSP Program is meeting the needs of the PICP and the participating countries.

Back Row (L – R)

SSP Seru Neiko - Fiji Police Force, Ms. Leotrina Macomber - Pacific Islands Law Officer's Network (PILON),
Sergeant Aporo Kirikava - Cook Islands Police Service, Ms Asha Sharma – DFAT,

Vanuatu—Cyber Safety Awareness

CERT Vanuatu has been very active in promoting Cyber Safety and promoting safe online attitude to our constituents.

About from its daily operations, we continue to conduct Awareness to your clients in Government, Schools and the general public.

I have supplied 4 different scenarios of Awareness that CERTVU has recently contacted that would be picked up for your news later.

1. CERTVU / CSP Collaboration disseminating Cyber Safety message via SMS
2. CERTVU Awareness targeting Decision and Policy Makers
3. CERTVU Awareness with “Open Gender Policy”
4. CERTVU Awareness to remote constituents

1. CERTVU / CSP Collaboration disseminating Cyber Safety message via SMS

One of the Milestones that CERTVU (CERT Vanuatu) and CSP via the Vanuatu Police Force (VPF) is to get the awareness through to the General public of Vanuatu via the SMS Service with one of the biggest Mobile Operators.

Telecom Vanuatu Ltd (www.tvl.vu) is one of the biggest mobile operators in Vanuatu reaching almost 70% to 80% of the national population of Vanuatu.

Below is the message that was send out via TVL Mobile operation SMS Services on April 25th 2019 at 17:13Hrs

<https://www.facebook.com/CERTVU/photos/a.1176277805852877/1313408868806436/?type=3&theater>

2. CERTVU Awareness targeting Decision and Policy Makers

One of the very Import Awareness CERTVU has completed is with the Director Generals (DGs) and Directors of all Government Ministries. This is to make the aware and see the need in their Ministries and

Departments to allocate funds during budget making to include funds for Security in their IT Department. It is also included in out CERTVU Facebook Page.

Continued on Page 4

3. CERTVU Awareness with “Open Gender Policy”

CERTVU conducted awareness to young Girls and women during the “International Woman and Girls ICT Day” on 25th of April 2019.

We stressed privacy issued on Social media and how many girls and women have come victims. We also promoted ICT and Security in particular at a potential Career that needs to see young girls venture into.

It was a very successful talk with many girls taking interests and asking questions.

A recent success story for CERTVU was to get to a remote back of Vanuatu to deliver the message of being “safe online” and how to use ICT tools to enhance their life on a positive path.

I had to travel to a remote island in Vanuatu, called Pentecost to contact the awareness. Also can be found on CERTVU FB Page.

Story by Roy Netvurak, Vanuatu Police Force

Vanuatu Community Day— 14 May 2019

On 14 May 2019, VPF Family Protection Unit (FPU) and State Prosecutions Department held a community day at Blacksands, in Port Vila Vanuatu. The day focused on educating and creating awareness to women around what is family violence and how to break the cycle.

Around 70 women attended the sessions before taking part in a cricket match. As the day occurred during school holidays an estimated 100 pikinini also came along, and participated in an education session about respect, and how to contact police in an emergency.

Cyber safety Pasifika merchandise, was awarded to the winning team of the cricket game, before the whole group enjoyed lunch together.

Positive feedback was received from the community who enjoyed the day, and loved their t-shirts, balls, water bottles and hats!

Story by Anna Wronski, AFP Advisor Vanuatu

CSP Awareness Training in Fiji

I was invited by the Southern Division Training Officer IP Linieta to deliver the CSP Awareness package to the 20 Southern Division community officers 3days workshop. Time allocation given for the deliberations was 45 minutes but I was privileged that it was extended to an hour where the whole package was delivered.

These community or post officers are the main officers who will be my mouthpiece to their communities in their individual area of operation. These includes schools, villages, business houses, squatter settlements, youth groups, sports groups religious groups and many more to mention a few.

Participants consists of 17males and 3 females (total of 20) ranging from 30 to 50yrs. The 3 package was delivered (technology, teacher and student presentations). Through your approval I was able to disseminate the package to the participants through their given email address. I have created a WhatsApp account for this team for updates of their awareness with photos.

They found the package very educational and simple to understand and this will assist them sanitizing their communities as they are fully equipped with the message of cyber safety pasifika. They were also reminded that this package is not only for Fiji but we are in the same wavelength as those in other Pacific Islands.

We are also working on translating the student and teacher presentation into Hindi language for our Indo Fijians.

Cyber Safety Pasifika — 2019/20

Upcoming Activities

CSP Awareness Train the Trainer

15th —17th October 2019—Solomon Islands Train the Trainer

10th—12th February 2020—Vanuatu Train the Trainer

CSP Investigations

21st—23rd August 2019—Fiji Tier 1

26th—30th August 2019—Fiji Tier 2

15th—17th October 2019—Solomon Islands Tier 1

20th—22nd November 2019—Samoa Tier 1

25th—29th November 2019—Samoa Tier 2

3rd—5th February 2020—TBA Tier 2

24th—28th February 2020—CSP Pacific Specific Australia Tier 3

20th—24th April 2020—Vanuatu Tier 2

18th—20th May 2020—Tonga Tier 1

8th—12th June 2020—Fiji Tier One Train the Trainer

CSP—Legislation Policy Development (3PN)

3rd—5th December 2019—Fiji 3PN

CSP Advisory Committee

23rd—24th March 2020— CSP AC

CSP – Capability Evaluation

One of the outcomes of the CSP Advisory Committee meeting was the need to baseline the cybercrime capability across individual jurisdictions. As such, the Capability Evaluation was developed.

The purpose of this evaluation is to establish an understanding of what capability and capacity each nation has in relation to cybercrime training, legislation and what other training is being provided by other Agencies.

The analysis of this information will assist in determining the future direction of CSP, giving us a firm country-by-country overview of what CSP can deliver and assist us in ensuring we are not saturating the region with courses or training that is being delivered by others.

Story by Mia Martel, CSP

Important Reminders

Success Stories

After completing CSP Awareness training at a school or in the community please ensure you contact Ms Kellie Keys via email with the below information:

- I. When the training was delivered, how many people participated and the gender split
- II. Good news stories with photos for the newsletter

Don't forget!

The Outreach Program is available for use. This program is to provide the opportunity for CSP Trainers to submit a business case for things such as:

- I. Travel to remote locations in their countries to deliver community awareness presentations.
- II. Purchase equipment or in country marketing material to assist the delivery of CSP Awareness Safety message and presentations.

Can you help?

Translation of CSP fact sheets: If you can assist translating the CSP fact sheets into another language please contact the CSP Team, details below.

Merchandise

Please check your merchandise stock levels and let the CSP team know what you need.

Facebook

CSP now has a Facebook page for the CSP Awareness Trainers. This is a closed group for the CSP Awareness trainers only. If you have Facebook please look up CSP Awareness Trainers and join the online conversation on the great work everyone is doing.
